

IN THE SPECIFICATION

Please amend the specification as indicated below.

Please replace the paragraph beginning at page 23, line 14 with the following amended paragraph:

A1  
This test sample was left standing in a dry condition of 40°C for 24 hours, and the weights of the test sample before and after left standing were measured to calculate the moisture permeability ~~(g/cm<sup>2</sup>·24 hours)~~ (g/m<sup>2</sup>·24 hours) from the weight loss thereof.

Please replace Table 2, line 10 on page 32 with the following corrected table:

H2

Adhesive	Moisture permeability <del>(g/cm<sup>2</sup>·24 hours)</del> (g/m <sup>2</sup> ·24 hours)
Acryl base adhesive	1600
Silicon base adhesive	7300
